Technical Writing and Speaking in English Presentation Assignment.

Danilo Carastan-Santos

October 7, 2022

Assignment: Choose one paper from the list below and present it to the class

- All papers are open access. Just search for the paper's title on Google Scholar to find the paper. If the paper is too long (for instance a survey paper). You can present only a part of the paper.

  - A "part" does not mean, for instance, "i will only present the abstract".
  - For instance, if a paper presents 10 techniques, you select 2 or 3 to mention during the presentation.

- You will have to prepare a slide presentation and an oral presentation. You are going to perform the oral presentation in the class

- It is a **graded assignment**.

- Two grades: one for the slides and one for the oral presentation.

- The final grade will be an average from the two abovementioned grades.

- Deadline for the slides: **November 25 2022**

  - Send the slides to danilo.carastan-dos-santos@inria.fr
  - The subject of the email must follow this template [**TWS 2022**] **FAMILY_NAME - Name. Presentation Assignment**

- Replace FAMILY_NAME and Name with your family name and name
- Only PDF file format will be accepted

- Presentations will start at **November 25 2022**. Check the course's repository (https://github.com/danilo-carastan-santos/technical-writing#readme) to know when you are going to present

- The oral presentation time is **10 minutes**. Passing 10 minutes (or finishing too early) will strongly affect your grade, so rehearse your presentation to finish close to the 10-minute mark.
